Industry Throws Away Millions Each Year In The Way Of Broken, Corroded and Eroded Plant and Machinery. A MAJOR part of this could be RECOVERED and REPAIRED by using Polymer Maintenance Engineering Products.

Designed For Maintenance Engineering – Immediate Cost Saving Solutions

<h3>Engineering Grade Metal Repair Systems</h3> <p>Repair don't Replace</p>	<h4>Engineering Metal Repair System</h4> <ul style="list-style-type: none"> • Excellent Mechanical Strength • Easy Machining Properties • Allows For Repairs in One Easy Application • Ideal For repairs To Pumps, Valves, Worn Shafts, Stripped Threads And Much More! <p>Download Data Sheet ... Request more info »</p>	<h4>Engineering Metal Repair Stick</h4> <ul style="list-style-type: none"> • Fast Curing & Will Set Underwater • Supplied In Easy To Use Stick • High Physical & Mechanical Strength • Developed For On Site Repairs to Castings & Worn Threads AS Well As Underwater Repairs <p>Download Data Sheet ... Request more info »</p>	<h4>Rapid Metal Repair System</h4> <ul style="list-style-type: none"> • Rapid Repairs To Leaking Pipes, Radiators, Tanks, Fuel Tanks, Cracked Batteries. • Works With Dissimilar Metals • Ideal For Scored Rams & Marked Flanges • Quick Cure Enable FAST Repair And Back In Service Time <p>Download Data Sheet ... Request more info »</p>
--	--	--	--

PLUS – Reduce Inventory (Spares Costs / New Parts / Consumables)

<h3>Rapid Pipe Repair and Lagging Protection Systems</h3> <p>Repair don't Replace</p>	<h4>Rapid Cure PipeWrap Bandage</h4> <ul style="list-style-type: none"> • Simple To Use • Rapid (Minutes) To Cure • Moisture Activated • Available In Range Of Sizes • Temperatures > 270°C • Pressures Up To > 27 bar <p>Download Data Sheet ... Request more info »</p>	<h4>Any Size Pipe Repair</h4> <ul style="list-style-type: none"> • Solvent Free Epoxy Resin System • On-Site Repairs To Metal, Wood, Glass & Synthetic Materials • Simple To Use In conjunction With UPS Special Reinforced Glass Tapes for ALL PIPE REPAIRS <p>Download Data Sheet ... Request more info »</p>	<h4>Lagging Protection Systems</h4> <ul style="list-style-type: none"> • High Performance polymeric Coating Designed To Encapsulate & protect: • Thermal Insulation • Lagging • Asbestos Encapsulation • Fire Performance Tested • Protects Against Spread Of Surface Flame <p>Download Data Sheet ... Request more info »</p>
--	---	--	--

PLUS – Increase Throughput (SPEEDY repair or Broken Equipment)

<h3>Ceramic Carbide Engineering Repair Systems</h3> <p>Repair don't Replace</p>	<h4>Ceramic Carbide Wearing Compound</h4> <ul style="list-style-type: none"> • Developed For Fluid Flow Applications • High Abrasion – Corrosion & erosion Resistance • Optimum Physical & Mechanical Strength • Available In Energy Saving Format <p>Download Data Sheet ... Request more info »</p>	<h4>Abrasion Resistant Ceramic Carbide Fluid</h4> <ul style="list-style-type: none"> • Fluid Grade Easy To Apply • Designed For Use In Fluid Flow Environments • High Abrasion – Corrosion & erosion Resistance • Optimum Physical & Mechanical Strength • Available In Energy Saving Format <p>Download Data Sheet ... Request more info »</p>	<h4>Heavy Duty Ceramic Carbide</h4> <ul style="list-style-type: none"> • EXTREMELY HIGH ABRASION RESISTANCE • Best In Class • Reinforced With Ceramic & Carbide Particles • Best Product For Abrasion & Erosion Resistance. • Ideal For Equipment Subject To Aggressive Attacks From Dry Solids & Slurries <p>Download Data Sheet ... Request more info »</p>
--	---	--	--

PLUS – Increase Positive Cash-Flow (Fewer Unscheduled Stoppages)

<h3>Elastomeric Engineering Repair Systems</h3>	<h4>Rapid Grade Elastomeric Paste</h4> <ul style="list-style-type: none"> • Fast Curing (Shore A Hardness of 60) • Developed for the repair of rubber components by trowel / putty knife 	<h4>Elastomeric Fluid Grade</h4> <ul style="list-style-type: none"> • Fluid Grade (Shore A Hardness of 60 or 80) • Developed for casting rubber components • Suitable to use on impellers, hoppers, chutes, valves, rollers or 	<h4>Elastomeric Paste Grade</h4> <ul style="list-style-type: none"> • Paste grade (Shore A Hardness of 60/80) • Developed for the repair of rubber components by trowel / putty knife • Suitable to use on impellers,

Repair don't Replace

- Supplied in Blister Pack
- Optimum mechanical strength
- Also supplied in 75 Shore A Hardness

[Download Data Sheet ...](#)
[Request more info »](#)

- gaskets
- Further Fluid grade elastomers are available

[Download Data Sheet ...](#)
[Request more info »](#)

- hoppers, chutes, valves, rollers or gaskets
- Fluid grade available

[Download Data Sheet ...](#)

Marine Solutions

Repair don't Replace

Standard Resin & Hardener

- High Performance Solvent Free Epoxy System.
- Designed For Onsite repairs To Metal – Wood – Glass & Synthetic Materials
- Provides Optimum Adhesion
- Simple To Use
- Designed To Compliment The Reinforced Glass Tape and Matt Systems

[Download Data Sheet ...](#)
[Request more info »](#)

Engineering Kits / Glass Tapes

- Solvent free & Epoxy Based Resin & Hardener
- Water Activated Bandages For Pipe Repair & Coating
- Glass Tapes & Mats
- Application Accessories
- Fluid Flow Repair Materials & Coatings

[Download Data Sheet ...](#)
[Request more info »](#)

Corrosion Resistant Coatings

- High Performance Solvent Free Coating
- High BUILD System
- For Wood, Steel, Metal, Phenolic & GRP Surfaces
- Suitable For Total Immersion Conditions
- Minimal Surface preparation Required.

[Download Data Sheet ...](#)
[Request more info »](#)

Concrete Repair Grip Systems Chemical Coatings

Repair don't Replace

Concrete Patch Repair

- Repairs to damaged and eroded concrete
- Fast settings
- Self-priming
- Good adhesion, abrasion, impact & chemical resistance

[Download Data Sheet ...](#)
[Request more info »](#)

Anti Slip Grip Systems

- Slip deterrent system for mineral and metal surfaces
- Suitable for application in cold damp conditions
- Ideal for steps, ramps, floors, concrete, wood, GRP & tiles
- Use in combination with ThistleBond Grips
- All grip aggregate available

[Download Data Sheet ...](#)
[Request more info »](#)

Ultimate Chemical Protection

- High Performance Solvent Free Coating
- Designed For The Harshesht Environments
- Exception Resistance To Chemical Attack
- Prevents Permeation and Subsequent Attack
- Excellent Adhesion To Steel & Concrete
- The ULTIMATE BUND LINING!
